Re: Request for Information Pursuant to Section 104(e) of CERCLA for the Allied Paper/Portage Creek/Kalamazoo River Superfund Site in Kalamazoo and Allegan Counties, Michigan

Dear Sir or Madam:

The U.S. Environmental Protection Agency ("U.S. EPA" or the "Agency") has been supplementing the investigation conducted by the Michigan Department of Environmental Quality at the Allied Paper/Portage Creek/Kalamazoo River Superfund Site (the "Site"), which is located in Allegan and Kalamazoo Counties, Michigan. U.S. EPA believes that Georgia-Pacific Corporation ("Georgia-Pacific") may have information that is relevant to this investigation.

The Comprehensive Environmental Response, Compensation and Liability Act, 42 U.S.C. §§ 9601 *et seq.* ("CERCLA") gives U.S. EPA the authority to: (1) assess contaminated sites; (2) determine the threats to human health and the environment; and (3) clean up contaminated sites. Under Section 104(e) of CERCLA, 42 U.S.C. § 9604(e), U.S. EPA has the authority to gather information and to require persons to furnish information or documents relating to:

- A. The identification, nature and quantity of materials which have been or are generated, treated, stored or disposed of at a vessel or facility or transported to a vessel or facility;
- B. The nature or extent of a release or a threatened release of a hazardous substance or pollutant or contaminant at/or from a vessel or facility; and
- C. The ability of responsible parties to pay for the costs of the clean up.

One area of investigation concerns the amount and sources of PCBs released to the Kalamazoo River. PCBs were used in the manufacture of "no-carbon required" or "NCR" paper during the period 1954 to 1971. PCBs were introduced directly into the secondary fiber recycle stream through the recycling of broke produced in the manufacture of NCR paper, and through the recycling of converter trim from processors of NCR paper. PCBs were introduced indirectly into the secondary fiber recycle stream through the recycling of post-consumer waste paper containing NCR paper.

U.S. EPA understands that, between 1968 and 1971, Georgia-Pacific or its predecessors, Great Northern Nekoosa Corp. or Nekoosa-Edwards Paper Co. ("Georgia-Pacific") produced NCR paper coated with emulsions containing PCBs at the paper coating mill located in Port Edwards, Wisconsin (the "Port Edwards mill"). The Agency is attempting to determine to what extent Georgia-Pacific may have shipped or sold, either directly or indirectly through waste paper brokers, NCR paper broke generated at the Port Edwards mill to any of the secondary fiber pulp and paper mills located within the Kalamazoo River area of Michigan. Attachment A contains a list of known paper mills in the Kalamazoo River area, but it may be that Georgia-Pacific is aware of other mills in that area that purchased or obtained NCR paper broke from the company.

For purposes of this request, U.S. EPA defines "NCR paper broke" to include side trim from rolls of NCR paper, roll ends, machine brakes, off-specification NCR paper scrapped at the mill and customer returns not resold as a commercial grade of NCR paper. Unless otherwise specified, the relevant time period includes those years when Georgia-Pacific produced NCR paper coated with any emulsion containing PCBs at the Port Edwards mill.

U.S. EPA requires that Georgia-Pacific provide the following information and data as soon as possible, but not later than sixty (60) days from the date of receipt of this Information Request.

1. Provide the month and year when NCR paper coated with any emulsion containing PCBs was first produced at the Port Edwards mill; the month and year when NCR paper coated with any emulsion containing PCBs was last produced at the Port Edwards mill; the amount of finished NCR paper shipped from the Port Edwards mill annually; and the amount of broke generated by the Port Edwards mill annually.
2. Identify each shipment of NCR paper broke from the Port Edwards mill that was sent, directly or indirectly through a waste paper broker, to any of the secondary fiber pulp and paper mills located within the Kalamazoo River area of Michigan. For each such shipment, identify: (a) the date (month and year) of the shipment; (b) the amount (in pounds) of NCR paper broke shipped; and (c) the name and address of the entity to which the shipment was sent.

3. Provide the dates (month and year) and amounts in pounds of NCR paper broke shipped from the Port Edwards mill, either directly or indirectly, to company-owned waste paper brokers and to other waste paper brokers.
4. To the extent available, provide the current names, addresses and phone numbers for each waste paper broker to which NCR paper broke was shipped from the Port Edwards mill during the relevant period.

Pursuant to the authority of Section 104(e) of CERCLA you are requested to respond to this Information Request. This Request is not intended to be duplicative of prior Information Requests, but rather supplements the earlier Information Requests and seeks additional information. Compliance with Information Requests under Section 104(e) of CERCLA is mandatory. Failure to respond fully and truthfully within sixty (60) days after receipt of this letter, or to justify adequately any failure to respond, can result in enforcement action pursuant to Section 104(e)(5) of CERCLA, 42 U.S.C. § 9604(e)(5).

This Information Request is directed to you, your company, its officers, directors and employees, and its subsidiaries, divisions, facilities and their officers, directors and employees. This Information Request is not subject to the approval requirements of the Paperwork Reduction Act of 1980, 44 U.S.C. § 3501 *et seq.*

Please mail your response within sixty (60) days after your receipt of this Information Request to:

Ms. Eileen L. Furey
Associate Regional Counsel (C-14J)
U.S. Environmental Protection Agency, Region 5
77 West Jackson Boulevard
Chicago, Illinois 60604-3507

Please direct any questions you may have regarding this Information Request to Ms. Furey at (312) 886-7950, or Ms. Renita Ford, U.S. Department of Justice at (202) 305-0232.

Thank you for your cooperation in this matter.

Sincerely,

A handwritten signature in black ink, appearing to read "Janice S. Loughlin". The signature is fluid and cursive, with the first name "Janice" being more prominent.
